unlimited users**

Intuitive to use

**Increases your service
performance**

**Headset & smartphone
connection, call handling**

**Multichannel, several
systems on one site**

COMMUNICATION SYSTEM FOR BROADCASTING AND ENTERTAINMENT PROFESSIONALS.

The Vokkero® Guardian Plus system, has been specially developed for teams working in the broadcasting and entertainment sectors.

Vokkero® Guardian Plus perfectly meets the needs of all mobile teams (stage management, lighting, production, etc.) seeking instant, hands-free communication, while remaining constantly connected to members of the mobile team.

Its greatest asset is its ultra-sensitive patented noise filter for «crystal clear» audio communication. It therefore ensures optimal listening quality even in very noisy environments (music, crowds, shouting, etc.).

The Vokkero® Guardian Plus system facilitates unrestricted movement as it does not have a base. In addition, a network extension can be provided to ensure compatibility with the various wired intercom systems (2 wire and 4 wire) already installed in your work environment.

**THEATRE, CONCERT, ENTERTAINMENT,
EVENT MANAGEMENT, BROADCAST**

RADIO COMMUNICATION SYSTEM FOR «CRYSTAL CLEAR» AUDIO QUALITY.
